**STATE OF ALABAMA  
DEPARTMENT OF TRANSPORTATION  
GUIDELINES FOR OPERATION**

**SUBJECT: PROCEDURES FOR PROCESSING STATE AND INDUSTRIAL  
ACCESS FUNDED COUNTY AND CITY PROJECTS**

No work can be performed and no contracts can be let prior to having a fully executed project agreement, submittal of project plans to Region and notification from the Region that advertisement for bids can be made, or, in the case of force account projects, work can begin.

A project agreement will be prepared and furnished to the County/City upon receipt of grant award letter signed by the Director or Governor. The Region will prepare and submit a F-7A Budget Allotment request upon receipt of a project funding agreement at the time it is submitted to the County/City for their execution.

The County/City will submit plans prepared and signed by a registered professional engineer showing work to be performed. Plans must match the project agreement description. It is not necessary for the Region to perform an in-depth review of plans. The County/City will submit a certification signed by a Registered Professional Engineer stating that the plans have been prepared so that all items included in the plans meet ALDOT specifications. The County/City will include a letter certifying that the County/City owns all right-of-way on which the project is to be constructed.

Upon receipt of the executed agreement, the executed F-7A, final plans from the County/City, and right-of-way certification, the Region may notify the County/City to proceed with advertising the project for letting or proceed with work in the case of a force account project.

In the case where a County/City is using an in-place annual bid, the County/City will furnish the Region a copy of their bid and this bid price will be used for reimbursement.

Where the County/City is letting a contract locally, the County/City will furnish to the Region the three lowest bids with their recommendation for award. The Region will review the bids, and, if in order, advise the County/City to proceed with award of the contract to the lowest responsible bidder. The County's/City's estimate for reimbursement will be based on the bid prices concurred in by the State and supported with documentation that the contractor has been paid for work performed (copy of cancelled check).

A certification will be submitted with County/City final estimate stating that the project was constructed in accordance with final plans submitted to the State and with the specifications, supplemental specifications, and special provisions which were shown on the plans or with the State's latest specifications which were applicable at the time of plan approval.

The County/City will notify the Region when the project is complete and the Region will perform a final ride-through to determine whether the project was completed in substantial compliance with original final plans. Final acceptance will be made by the Region with a copy of the letter furnished to the Bureau of Local Transportation.

All required test reports, weight tickets, material receipts and other project documentation required by the specifications, applicable supplemental specifications, and special provisions will be retained by the County/City for a period of three (3) years following receipt of final payment and made available for audit by the State upon request. If an audit is performed and proper documentation is not available to verify quantities and compliance with specifications, the County/City will refund the project cost to the State or do whatever is necessary to correct the project at their cost.

All County/City Industrial Access or State funded projects let to contract by the State will follow normal project procedures and comply with all current plan processing requirements.
